STORYTELLER™

**INTERACTIVE TOUCHSCREEN SYSTEM
CREATED BY ACCUWEATHER**

Empower your news, sports and weather talent and impress your audience with the same interactive controls seen on network television!

StoryTeller Interactive Touchscreen System, created by AccuWeather, is the secret to fresh, lively, personalized, latest-technology presentations that speak directly to your audience. It puts all the elements of breaking news, sports, traffic, and weather stories literally at your fingertips.

StoryTeller allows your on-air talent to directly incorporate live HD and SD video, images, movies, and web content as the story unfolds in real time. Designed in consultation with experienced television broadcasters, the proprietary Interactive Touchscreen interface includes special features to easily move story elements within the display and to quickly swipe from one full-screen scene to the next.

Of course, StoryTeller also has full telestration capability to explain the story in a clear and conversational style.

Much more than just a display screen, StoryTeller also includes specialized applications for news, elections, traffic, and weather presentations. It also brings you a library of informational videos and graphics for tsunamis, hurricanes, earthquakes, and other natural disasters, making it easy to be first on the air with the story behind the headlines.

StoryTeller allows you to ingest graphics or video from any weather display system -- VizRt, WSI, Weather Central or CinemaLive HD -- or it can be used as a stand-alone system for all your news presentations.

**AccuWeather's StoryTeller™
is now utilized by ABC Owned Stations
WABC, KABC, WLS, and WPVI
in the top four U.S. television markets.**

System Specifications

Current Resale System

Equipment	Interactive Touchscreen System
Platform	Dell Precision Workstation T5500
Processor 1	6-Core Intel Xeon X5660 2.8GHz
Cache	12MB, 6.4GT/s
Memory	12GB of DDR3 1333Mhz
Video Card	NVIDIA GeForce GTX560
Video Memory	1GB
Monitor	20" Dell LCD Flat Panel
Video Input Card	AJA Kona LHi
Touchscreen	Lumio or U-Touch 65" Integrated Touchscreen
RAID Controller/Array	Dell Perc 6i/RAID 10 Array
Hard Drives	4 - 300GB 10K RPM SATA in RAID 10 Array
DVD Drive	16x DVD-ROM
Operating System	MS Windows 7 Ultimate 64-bit
Network Card	Gigabit
Keyboard	USB
Mouse	USB
Additional Ports	Standard USB
Software	AccuWeather Multi-touch Software Package

System Dimensions

Base System	Dimensions	Weight
Program Server	17.7"H x 6.8"W x 18.6"D	40 lbs.
20" Flat Panel Console	13.1"H x 49.5"W x 6.5"D	15.2 lbs.
65" Touchscreen	Approx. - 36"H x 61"W x 5"D	Approx. 150-220 lbs.
Options		
32" Touchscreen	Approx. - 18.8"H x 31.1"W x 5.7"D	43 lbs.
55" Touchscreen	Approx. - 28.5"H x 49.5"W x 6.5"D	Varies - Approx. 125 lbs.
82" Touchscreen	Approx. - 45.2"H x 76.2"W x 6.5"D	Varies - Approx. 400 lbs.
